

## Lebenslauf

# Frontend Developer Pavlo

**Verfügbar: in 2-3 Wochen**

**Kosten: 37 Euro/Stunde**

### SKILLS

#### Programming languages:

- JavaScript,
- TypeScript,
- HTML5,
- CSS3.

#### Tools and frameworks:

- AngularJS,
- Angular 2+,
- Bootstrap,
- jQuery,
- Angular-Material.

#### Additional technologies:

- RBAC,
- Sonarqube,
- OAuth,
- OpenID Connect,
- GraphQL,
- REST,
- Swagger,
- Git,
- WebSockets,
- Lodash,
- Foundation,
- Sass/Less,
- Stripe API.

**CI/CD:**

- Webpack,
- Gulp,
- Jenkins,
- GitlabCI,
- Rancher,
- Docker,
- Docker Compose.

**EXPERIENCE**    **App Store Launch Platform**

Front-End Developer  
November 2020 - April 2022

**Team size:** 15 Developers.

It is a platform that allows customers to build, brand, and launch their own app store platform, which is easily submitted by developers, discovered by users, and managed by the owner.

The platform represents a full CRM system that allows set up sites. From app onboarding to payments, every function of the app store is powered by an API, keeping it flexible to meet current and future needs.

I was involved in library development with customizable components, directives, and pipelines that can be implemented into other Angular 2+ apps and data processing services for Openchannel API. Also, I created a mono repository that included these libraries and developed ready-to-use customizable templates for Developer and Marketplace Portals.

In addition, I implemented charts components, file uploads, and dynamic form generation based on a large configuration file.

**Note:** It has been acquired by Stripe

**Challenges:**

- develop components library and service library as separate npm modules;
- easy to customize marketplace templates;
- changeable dynamic SASS color theme;
- ready-to-use SASS mixins;
- rewritable component styling based on BEM methodology;
- maintain open-source code quality and changelog.

**Open-source part of the project:**

<https://github.com/openchannel/angular-template-libraries>

<https://github.com/openchannel/angular-market-template>

<https://github.com/openchannel/angular-portal-template>

<https://www.npmjs.com/package/@openchannel/angular-common-components>

**Technologies and Tools:**

Typescript, Angular 11, Storybook, Docker, Sonarqube, CloudWatch, OAuth, OIDC, Bootstrap, HTML5, CSS3, Sass, Linux.

### **Villa Booking Service**

Front-End Developer  
*March 2020 – October 2020*

**Team size:** 8 Developers.

It was developed for a luxury villa rental company in the Riviera Maya, Mexico. The application represents over 100 luxury properties in the most exclusive and thrilling locations in the region which can be picked by various filters and booked by customers for desired dates.

#### **Technologies and Tools:**

JavaScript ES6, TypeScript, Angular 8, HTML5, CSS3, Git, Sass/Less, REST, Bootstrap, jQuery, WebSockets, Foundation, Angular-Material, OAuth, OpenID Connect, Webpack, Docker, Docker Compose, Stripe API.

### **Public Services Platform**

Front-End Developer  
*May 2019 - February 2020*

**Team size:** 10 Developers.

The platform is designed for citizens to receive services from the state online. For example, to obtain certificates, extracts, and data from various state agencies and registries, to submit document packages for initiation of various processes: starting/ending of entrepreneur activity, registration of unemployment benefits, etc. It also contains electronic copies of documents such as passports, ID cards, student IDs, and driving licenses, which can be used like full-fledged copies of the plastic originals.

#### **Technologies and Tools:**

JavaScript ES6, TypeScript, Angular 6, HTML5, CSS3, Git, Sass/Less, REST, Foundation, Angular-Material, Webpack, Docker.

### **News and Media Portal**

Front-End Developer  
*September 2018 - April 2019*

**Team size:** 5 Developers.

It is a trusted partner for delivering and evaluating media across platforms, providing data and tools for digital marketing activities, web analytics, and ad serving. It offers comprehensive cross-media solutions, resolving the most complex challenges in the media ecosystem.

#### **Technologies and Tools:**

JavaScript ES6, TypeScript, jQuery, Angular 5, HTML5, CSS3, Git, Sass/Less, REST, SSR, Foundation, Angular-Material, Gulp, OAuth, Docker.

## **LANGUAGES**

English – Upper-Intermediate  
Ukrainian – Native

**SUMMARY**

I'm a creative, and goal-driven front-end developer with over 3 years of hands-on experience.

Over the years I've had an opportunity to contribute to a variety of different projects like Application Marketplace, Booking Service, Media Portal, and multilingual functionalities web applications and websites.
